READING THE CROSS TABULATION TABLES

The cross tabulations found in this report are presented in a "banner table" format. Categories of respondents (e.g. "35-54 years old," or "Female") are listed across the top of each page (the "banner"). The questions asked in the survey are listed down the left margin. The figures in the cells are percentages based on the number of respondents in the category at the head of each.

- The figures in bold type are percentages of respondents who gave each answer.
- The data were statistically weighted to align with demographic characteristics of voters
- Percentages may not add to 100% due to rounding.

1. As you probably know, there will be an election this November for state and national offices. How much attention are you paying to this election? Would you say you are paying...

   ROTATE TOP/BOTTOM
   - 56 Close attention to this election
   - 29 Some attention
   - 7 Not too much
   - 7 Very little attention to this election

2. As you think about the races for state legislature in your district, what are the most important factors that will help you decide how to vote? [OPEN Answers on p.6]

3. You will be asked to vote for two state representatives and perhaps a state senator, depending on your district. As things stand today, in these races for the state legislature, are you likely to vote for ...?

   ROTATE 1-4 TOP / BOTTOM
   - 31 All Democrats
   - 15 Mostly Democrats
   - 13 Mostly Republicans
   - 26 All Republicans
   - 15 UNDECIDED

4. There will be an election for Washington Secretary of State. As things stand today, in the race for Secretary of State, do you intend to vote for:

   ROTATE 1-2
   - 31 Democrat Steve Hobbs
   - 29 Non-partisan Julie Anderson
   - 40 UNDECIDED

5. There is also an election this year for Congress and US Senator. As things stand today, in the race for US Senator, do you intend to vote for:

ROTATE 1-2
- 50   Democrat incumbent Patty Murray
- 37   Republican challenger Tiffany Smiley
- 12   UNDEC

6. In the race for Congress in your district, as things stand today do you intend to vote for, Democrat [NAME] or Republican [NAME]?
[The individual candidates and their parties were named for each district in the questionnaire. The data are combined here to produce a statewide number.]

ROTATE 1-2
- 49   Democrat
- 37   Republican
- 14   UNDEC

7. As you probably know, Democrats have had majority control of both houses of Congress as well as the White House for the last two years. Which of the following statements best describes your opinion on the election this year?

ROTATE 1-4 TOP / BOTTOM, THEN READ 5
- 39   It is *important* that the Democrats keep control of Congress
- 10   It would be better if the Democrats kept control
- 12   It would be better if the Republicans took over control of at least one house
- 29   It is *important* that the Republicans take control of at least one House of Congress
- 8   It does not really matter which party controls Congress
- 3   DK/NA

8. It still a long way off, but thinking about the 2024 race for President, as things stand today would you be most likely to support...

ROTATE 1-2
- 21   Donald Trump
- 26   Joe Biden
- 15   A Republican other than Trump
- 20   A Democrat other than Biden
- 19   UNDECIDED

9. Some cities and states are using ranked-choice voting. For example, Alaska is using this method in the current elections. With ranked-choice voting, instead of voting for one candidate in a race, you would be asked to rank the candidates from your first choice to your third or fourth choice. When the votes are counted, if no candidate gets a majority of first-choice votes, then the second-choice votes are added to the total, and then the third, if needed, until one candidate has a majority.

    Would you be inclined to favor or oppose a ranked-choice voting system for Washington state? Would you…

The question was open-ended, meaning respondents answered in their own words. Answers were coded and categorized. The numbers are the percentages of the coded answers.

Individual codes are grouped into broader categories (in boxes). Codes may not sum to the category because respondents were able to give multiple answers.

BANNER TABLES

READING THE CROSSTABULATION TABLES

The crosstabulations found in this report are presented in a "banner table" format. Categories of respondents (e.g. "35-54 years old," or "Female") are listed across the top of each page (the "banner"). The questions asked in the survey are listed down the left margin. The figures in the cells are percentages based on the number of respondents in the category at the head of each

NOTE: The number of respondents in several of the cells is quite small, rendering the differences more likley to be due to chance variation than actual differences between the categories of respondent. Generally speaking, inferences should no be drawn where the number of cases is below 5 in each cell.
