Hi D [REDACTED]

Thank you for sharing your perspective with me. While I have been instructed to not speak to Saturday's events, I really, truly would like to know how I can help moving forward. I have always felt our practices to be a safe place and I want B [REDACTED] to feel safe at cheer. We actually do not have an admin at practice anymore – that was for a short period of time that is now over. Is there something I can be doing at cheer or at our athletic events in basketball/wrestling season to help B [REDACTED] feel protected? Can we come up with an action plan for a scenario where B [REDACTED] does show up at a public event that we can both agree to and I can share with my coaches? I am just looking for solutions to help us move forward. Please let me know your thoughts.

Stephania

Hi Stephania,

My concerns are about how Saturday was handled. I do not have any plans on forwarding my concerns to Donna or Chris. I do not plan on having any contact with them. I will leave that to my attorney. After Saturday I do not have confidence the administration will protect B [REDACTED]. The administration did not protect B [REDACTED] on Saturday. Coach Jordan did not protect B [REDACTED] on Saturday. Jordan basically told her she had a job to do and to get on her box and that is what she did with tears in her eyes. That is not acceptable. The administrators hugged and gave the boy who raped my daughter cookies. Donna Hood had a police officer threaten to have me taken to jail and would not allow me to get my daughter off the field. Again, not acceptable.

The school district has the ability to ban B [REDACTED] L [REDACTED] from all Skyline activities. There is no reason for him to attend Skyline events; he is not a student, he has no siblings at Skyline, he isn't an alumni. He has been convicted of sexual assault and that is enough for the ISD to ban him if they choose to. But, instead they chose to hug him, give him cookies and let him and his friends sit in the student section and glare at my daughter. This will continue to happen at every athletic event just because B [REDACTED] can now, and the administration has chosen to let him do it.

Also, my understanding is an administrator is supposed to be at cheer practices until the investigation with K and R is complete, which makes it worse because I do not want any of the administrators around my daughter.

Stephania, this whole situation is unfortunate and I am saddened by the choices the administration has made. I'm not upset with you and I do believe the safety of your girl's is of the utmost importance to you. However, B and I no longer trust that the administration does.

D

Hi D

If this is about Saturday, I have been instructed to send any concerns, comments or issues about what happened to Donna and/or Chris directly. As far as tomorrow goes, I want you to know I will be here and present with the girls the whole time. No one is allowed into our practices – they are closed, with the exception of alumni cheerleaders who tend to visit at the holiday times. If at any time, anyone not welcome to come in the gym arrived, I would get admin and security help immediately. The safety of my girls is my utmost priority.

If there is something else you want to discuss, please let me know.

Hi Stephania,

T is sending B text messages trying to get her to come to practice tomorrow. Before this happens we need to talk.

Thanks,

D

Hi Stephania,

After what happened at the football game this weekend B [REDACTED] does not feel comfortable being on the Skyline campus. She doesn't feel the administration will protect her and as a result she will not be at school this week.

D [REDACTED]
