Stevens(need to protect April Berg) but I think that's a small thing.

Thoughts on improving 28 and 42 in exchange? My 44th is really high and we'd be giving on our mm Snoco district so it's gotta be for something good, right?

kk- I think this is encouraging. Folks here thing 42 is higher priority of those two. But both important. Let's debrief all this after ur call? I feel like we're getting close. I have a couple tactical thoughts too. Onward,

Sounds good!

Question: are folks thinking we don't need to improve 28? Helpful to know for negotiations

We defer to House somewhat

Helpful to know for negotiations

We defer to House somewhat here — bc House members are up in 28th, however for us, we're ok with the performance we sent over ~58% Inslee

Ask anything else!

Ok, that's still an improvement from the current map, so good to know

FYI, the 28th is a firewall district so we have to improve that first I think and then the 42nd

Great. Let's go over everything when you free up! If you want a break - say 5? I am flexible

Now works

Ok great. Me too

Sunday 1:21 PM

Just reminder. Very important. We need to be the one that draws the final map before sending it to the commission staff if we get a deal.

Sunday 5:55 PM

I'm walking over to Black Angus

Lol

U done?

Lots of dramatics for what will basically be they get better by 2.5 in 44 and we get better by 1.75 in 47.

Eww. 1.75 total or $1.75 + 1/3$

1.75 plus $1/3$

Better. Better be status quo everywhere else then . U popping over here or u want me to come back

which already moves in their direction

They haven't felt any public pressure. This will highlight how partisan they are and how they are gerrymandering a state for one party rule and no voter choice

I won't release it publicly unless we don't get a deal in time

Reads good to me. There's a stray F at the end of the third to last paragraph. I think I'm going in there tomorrow and keeping it real simple: status quo on the swings, either 44 or 38 gets to be like 53.5% D (compared to 51 and change now), they get their 15th, we get a third of a point in 47, and we all walk away.

If we are giving that much in the 44th we should get at least 3/4 in 47

Good call

Hallway?

Yep.

Monday 7:53 PM

Got a quick sec?

Hallway?

Yes

Should we pack up?

Maybe?

I think at this point it needs to be yes or no, I'm afraid.

Are you offering a counter to my last offer?

Yes. 2 points in 44.

Got a second?

Yes

I'm in the hallway.

Walking back from the other room
