Ok- just looked. This seems like a step backward. Introducing new community splits. New areas of disagreement. Glad to talk about the 8th.

Here's joes reply to me:

It's a 0.00% partisan shift for among the 4 most competitive districts from the current lap map to this map using he treasurer number. My last offer for the 6th was 50.3 Pelicciotti, this offer is 51.3 Pelicciotti . A 1% move in your direction. My last offer in the 2nd was 52% Pelicciotti, this offer is 52.03%, a .03% move in your direction. The 8th and 3rd stayed exactly the same from last offer. The other districts aren't competitive so no substantive change there. So all I did was move

So all I did was move competitive districts in your direction. "Seems like a step backward" is a fun turn of phrase, but you have to back it up with data for it to mean anything. Looking forward to your counter.

AB That's making an assumption that his first map was a legitimate offer which we don't

happy to chat as well, but interpreting the offer as a step backward is insincere since the only changes I made were in your direction.

This just in from Joe too ^

Here's what I'm thinking for a reply ...

not insincere. my priority from the get go has been communities of interest. it

I don't understand how the commission can vote for a "plan" in the next 9 minutes when there isn't even an agreed on map.

It's contingent on our transmission of the maps.

I predict lawsuits. I don't think you all have adopted a plan.
